Font sizes:

If the default size of text on your PC, especially on laptops, is small and hard to read, here are the steps to increase it.

Right click on any empty part of the desktop wall paper

Click on Screen resolution and then click on Make text and other items larger or smaller.

## Change the appearance of your display

Display: 1. NEC MultiSync P221W ▾

Resolution: 1680 × 1050 (Recommended) ▾

Orientation: Landscape ▾

[Advanced settings](#)

[Make text and other items larger or smaller](#) ←

[What display settings should I choose?](#)

On this new window there are a few choices:

### Change the size of all items

Make text and other items on the desktop smaller and larger. To temporarily enlarge just part of the screen, use the [Magnifier](#) tool.

- Smaller - 100%
- Medium - 125%
- Larger - 150%

[Custom sizing options](#)

Let me choose one scaling level for all my displays

### Change only the text size

Instead of changing the size of everything on the desktop, change only the text size for a specific item.

Title bars ▾ 11 ▾  Bold

 If you use one scaling level, some items might be different sizes on different displays. You'll see this change the next time you sign in.

[Apply](#)

You can click on the checkbox and get the choice of size you want to increase for all items or leave the box blank, and as shown below, change the font of specific items

In the Items box I chose Menus, checked the Bold box, and then checked Apply

### Change only the text size

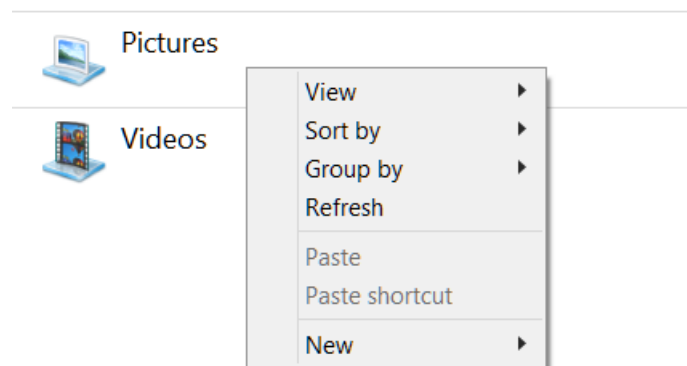

Instead of changing the size of everything on the desktop, change only the text size for a specific item.

Menus  9  Bold 

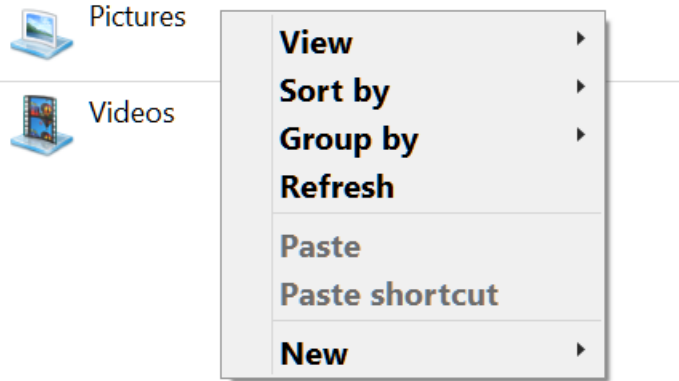

Here are the before and after results:

Before

After

Reminder: Don't forget to click on the Apply box to finalize the change.
